

## **Spring Boot with Prometheus and Grafana**

### **Objectives:**

To gain knowledge about the monitoring capabilities using Prometheus and Grafana using Spring Boot and how to implement the application level monitoring.

### **Duration: 8 Hrs**

### **Contents:**

1. Overview on Spring Boot monitoring
2. Spring Actuator
3. Prometheus and Grafana Overview
4. Installation and Configuration on Prometheus and Grafana
5. Dashboards on Grafana
6. Configuring Metrics using Actuator
7. Implementation monitoring using Spring Boot with Prometheus and Grafana
